UNIVERSITY OF COLORADO **DENVER** | **ANSCHUTZ MEDICAL CAMPUS**

## Biography

**Pei-Ni Jone, MD**

**Professor, Pediatrics-Cardiology**

**University of Colorado School of Medicine, Anschutz Medical Campus**

Dr. Pei-Ni Jone specializes in Kawasaki disease, 3D echocardiography and quality in echocardiography. Her clinical interests and research projects are in 3D echocardiography, echocardiography quality improvement, telemedicine in echocardiography (tele-echo) and Kawasaki Disease. Jone is a principal investigator (PI) for a 3D echocardiography multi-center trial and PI for the national echocardiography quality collaborative. She is the site PI for NIH-funded clinical trials on multisystemic inflammatory syndrome in children (MIS-C) associated with COVID and Kawasaki Disease. She leads innovative echocardiography probes and software developments. She received her BA and MD from Northwestern University.
