Biography

Sue VandeWoude, DVM
University Distinguished Professor, Department of Microbiology,
Immunology and Pathology Director, One Health Institute
Colorado State University

Dr. Sue VandeWoude is a veterinary virologist recognized for her studies of feline retroviruses. She attained her BS from California Institute of Technology, completed her DVM at Virginia-Maryland College of Veterinary Medicine and conducted a postdoctoral fellowship in Comparative Medicine at The Johns Hopkins University School of Medicine. She has served as President of ASLAP and ACLAM, Chair of the NIH Veterinary Subcommittee of the Physician Scientist Workforce Report and AAVMC Research Committee, Member, AVMA Council of Research and Veterinary Virology Councilor for ASV.

She was elected to the National Academy of Sciences in 2019. VandeWoude is currently a University Distinguished Professor and Director of the One Health Institute at Colorado State University.
