

Please do the following:

Contact a nurse immediately

Use the [Safe Zone app](#) which will immediately provide the exact location (floor and physical area on the floor) that the "call" is being made from. This is accomplished via the many wifi access points and can pinpoint where the caller is on the floor.

Dial 911 from any land line. This will provide general information that the call is coming from AHSB but it does not provide specific floor and room information. The caller will need to be prepared to provide that.

Dial 303-724-4444 from a cell phone. The caller will need to state that the emergency is in AHSB and specify the floor and room location

Only call 911 from a landline
Call 303-724-444 if using a cell phone
