Other Support – Project/Proposal

ACTIVE

*Title: CTSA K12 Program at University of Colorado Denver

*Major Goals:

The goal of our CCTSI K12 Program is to provide protected time and opportunities for an intensive, mentored career development experience that leads to independent extramural support and leadership positions in clinical translational research and academia. Along with individual K12 scholar self-efficacy, integration into the academic and social university milieu is imperative to strengthen connection and identity formation, which in turn will optimize success in obtaining extramural funding and leadership positions to sustain one's career. Scholars with diverse personal, discipline, and research backgrounds will be integrated into the CCTSI K12 Program where they will interact with leadership and peers, developing identities as clinical and translational scientists. Scholars will establish concrete goals and milestones, including academic skills development, and growing their network of mentors, to gain education and training fundamental to clinical translational science.

*Status of Support: ACTIVE

Project Number: K12TR004412

Name of PD/PI: Burnham

*Source of Support: NIH/NCATS

*Primary Place of Performance: University of Colorado Anschutz Medical Campus, Aurora, CO

Project/Proposal Start and End Date: 12/01/2023 – 11/30/2028

*Total Award Amount: \$5,401,875

* Person Months (Calendar/Academic/Summer) per budget period.
