

Colorado Clinical & Translational Sciences Institute

# Colorado PROFILES: Social Networking for the CU Scientist

October, 2019

Ronald J. Sokol, MD

Director and P.I.

Colorado Clinical & Translational Sciences Institute

[cctsi.ucdenver.edu](http://cctsi.ucdenver.edu)

# CTSA Program

- A national consortium of biomedical research institutions collaborating to transform how clinical and translational science is conducted nationwide
- Currently, 58 funded Hubs, many of which include multiple universities and hospitals.
- CTSA provide many local resources, facilities, research personnel, pilot funding, regulatory and informatics support, research units and education & training programs
- Grants originate from NCATS at NIH

# Colorado Clinical & Translational Sciences Institute (CCTSI)

- CCTSI is the Univ. of Colorado CTSA Hub
- Created in 2008
- Funded primarily by NIH CTSA grant
- Substantial institutional support (funding)
- Supports all faculty, post-docs, trainees and staff involved in clinical or translational research
- “Disease – agnostic”
- Most recent grant - **\$48,444,047** for 2018-2023

# CCTSI Vision

Accelerate and catalyze the translation of  
innovative science into improved health and  
patient care

# CCTSI Partner Institutions

- ***Three Universities***

UC Denver (UCD)

– CU-Anschutz Medical Campus:

6 health profession schools/colleges

– Downtown Denver

CU Boulder (CU-B)

(UCCS)

Colorado State University (CSU)

- ***Six Affiliated Hospitals and Health Care Organizations\****

UCH (UCHealth), CHCO, DHH, NJH, RMVAMC, KP

*\*Each is a separate legal entity, none owned by Univ. of Colorado*

# CCTSI Community Partners

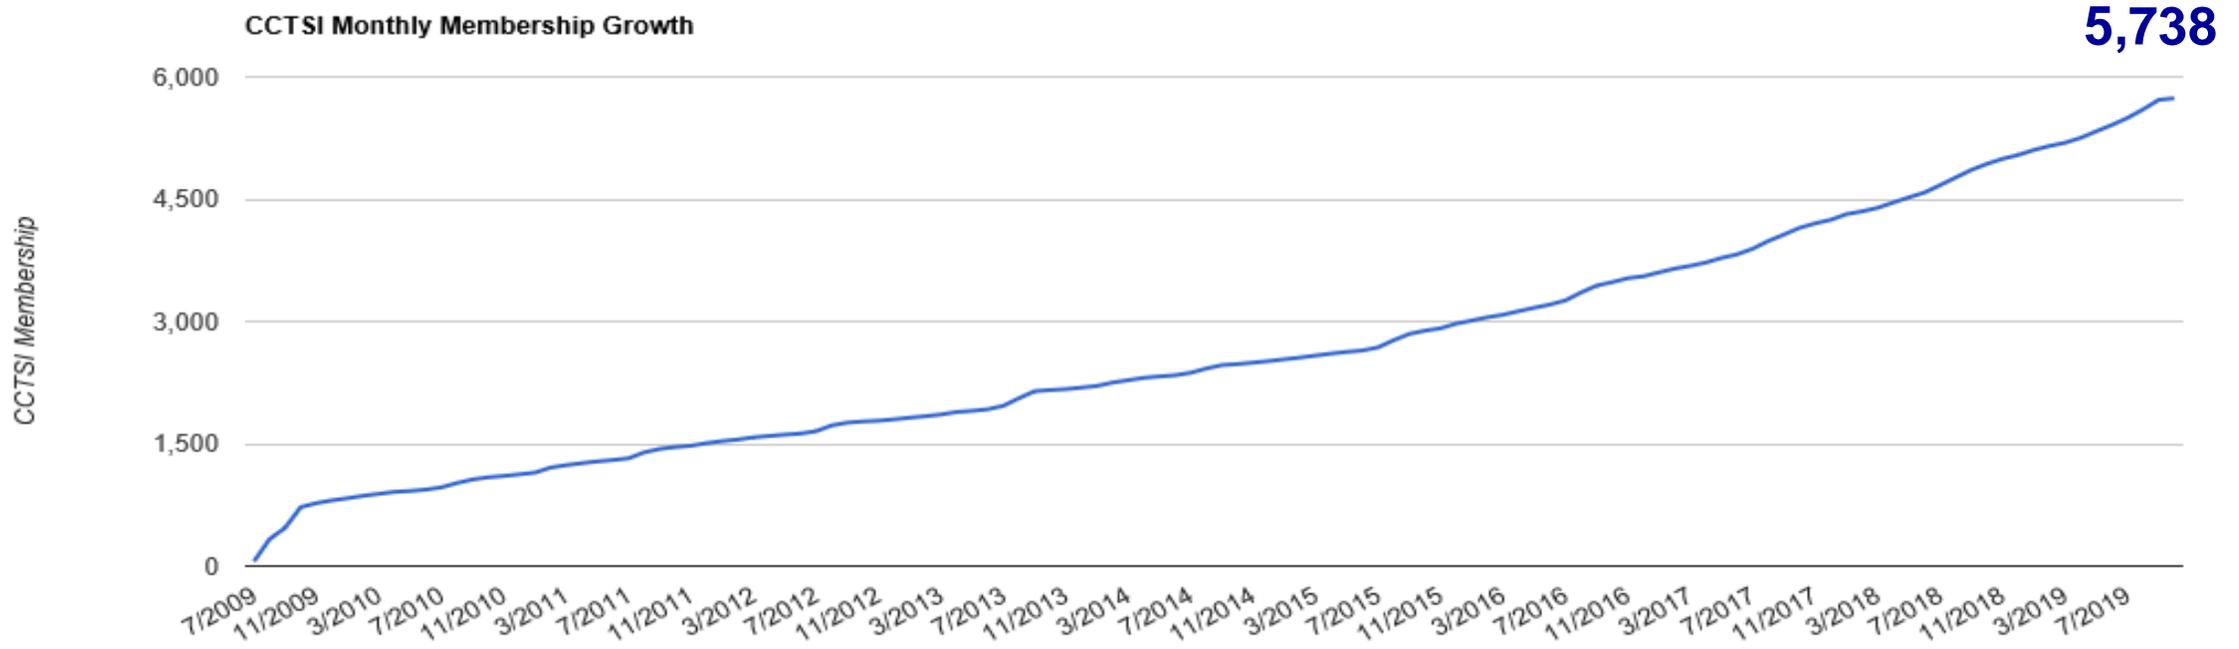

- **>20 Community-Academic partnerships** throughout the state, including multiple Practice Based Research Networks
  - **Underserved Populations:**
    - Native Americans, Latinos, African-Americans, Rural populations, Nursing partnerships, Catholic churches, Ranching, LGBT, etc.
  - **Partnership of Academics and Communities for Translation (PACT) Focus Groups:**
    - San Luis Valley, Stapleton 2040, American Indian/ Alaskan Native Programs, High Plains Research Network, Kaiser Patient/provider,

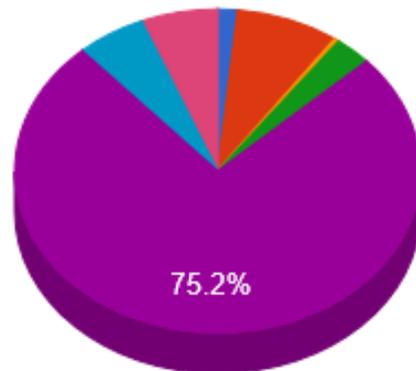

LUCHAR

# CCTSI Monthly Membership Growth

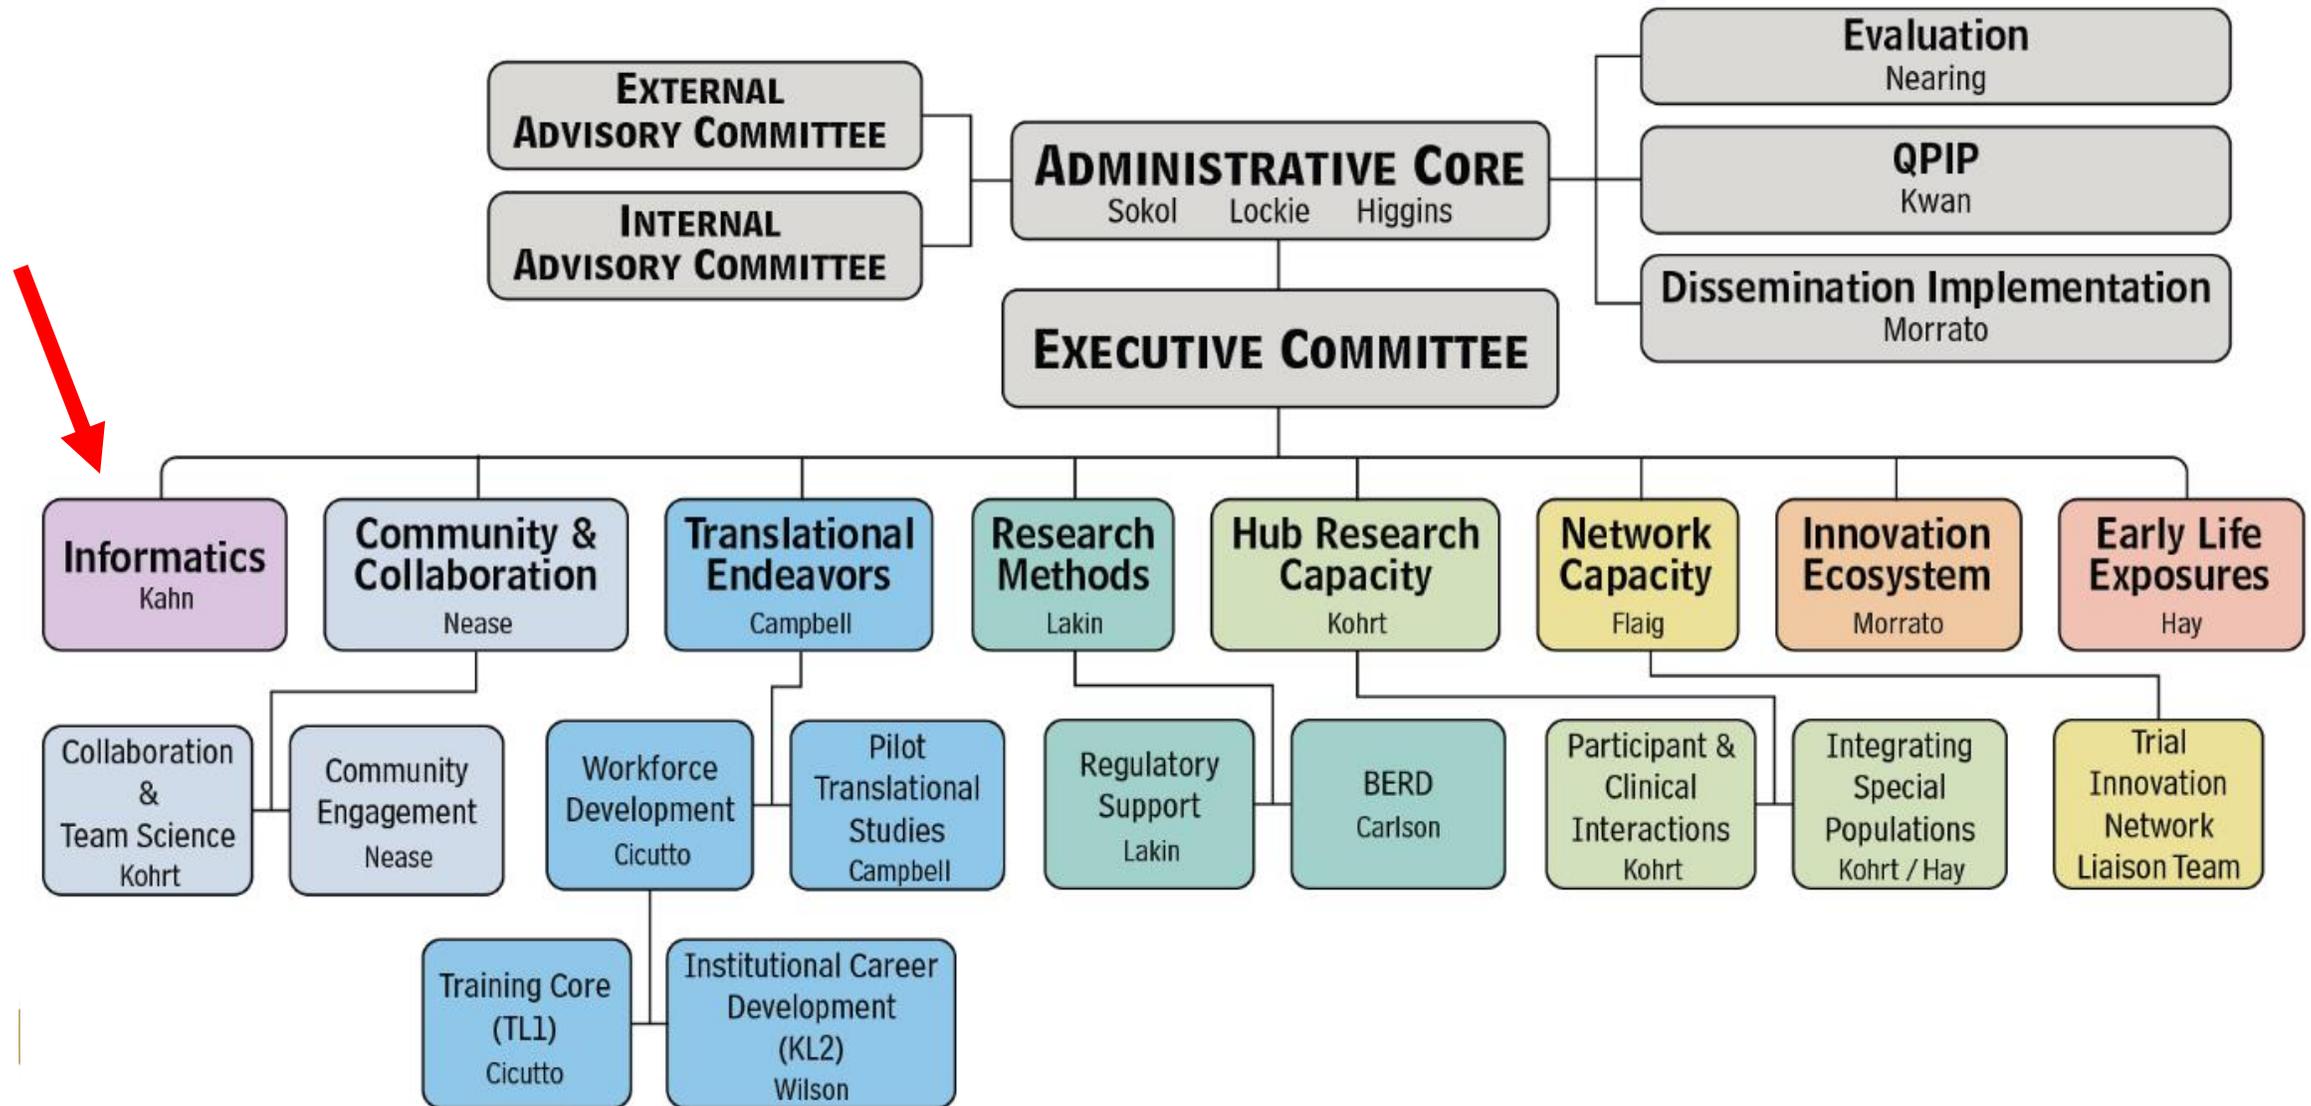

CCTSI Membership by Academic Affiliation

- Missing or Not reported
- Colorado State University
- Kaiser Permanente of Colorado
- Other
- University of Colorado Anschutz Medical Campus
- University of Colorado Boulder
- University of Colorado Denver

# CCTSI Organizational Structure

# We have a New CCTSI Website!!!

- Launched August 2019
- Google CCTSI
- <https://www.cuanschutz.edu/cctsi>
- <https://www.cctsi.ucdenver.edu>
- **For Colorado Profiles:**
  - Google “Colorado Profiles”
  - Click “Find a Researcher” on CCTSI, VCR, SOM home pages
  - <https://profiles.ucdenver.edu>

[COMMUNITY ENGAGEMENT](#) ▼

[NEWS AND EVENTS](#) ▼

[ABOUT US](#) ▼

### **ACCELERATING RESEARCH TO IMPROVE HEALTH**

The CCTSI helps build research teams of the future, speed the development of new treatments and improve human health

### Resources and Services

CCTSI supports translational research by providing resources, integrating facilities and services, developing innovative research tools and catalyzing interdisciplinary research programs.

### Funding

Each year, the CCTSI awards more than \$2 million in pilot grants, microgrants, and pre-doctoral and post-doctoral research scholar awards. You can find more information on each grant and how to apply

### Education, Training and Career Development

The Education, Training and Career Development (ETCD) program provides clinical-translational scientists and trainees with knowledge, training and career skills

### Clinical Translational Research Centers

The CTRC provides infrastructure, resources and dedicated space to conduct clinical research.

## Found In Translation

*News from around the CCTSI*

### Mapping Our Molecules »

Jun 25, 2019, 12:00 AM by Wendy Meyer

Why know that exercise is good for us. Professor Wendy Kohrt aims to find out why. She is leading an exercise study called MoTrPAC to develop a so-called molecular map of tissue-specific and circulating signals produced by physical activity.

# What is Colorado PROFILES?

- A **Search Engine** for a database of >8,000 biomedical researchers at all campuses of University of Colorado
- Each faculty member and post-Doc (biomedical or clinical) has a Profile page automatically generated for them, that you can/should edit/modify and monitor
- Pubmed (weekly) and NIH Reporter (monthly) and PeopleSoft (monthly) direct feeds that provide all Pubmed publications and recent federal grants and directory information
  - “Disambiguation algorithm” – machine learning
- Personal Network tools are built into PROFILES

Colorado Profiles currently includes profiles for researchers from UC Anschutz Medical Campus, UC Denver and UC Boulder

Login access for profile management requires use of official email and password from included institutions. If you do not know your official email and password, please contact IT services at their [website](#) or Help Desk 303-724-4357 (Monday - Friday, 7:30 AM – 5:00 PM MST).

If you are an affiliate user granted "Person of Interest" (POI) access to UC systems by a UC department, please contact the HR administrator in that sponsoring department for assistance managing your POI access.

Profile management edits made by directly by users or proxies are reflected In Colorado Profiles within 72 hours. Demographic information edits must be made in the Human Resources system by your HR Administrator, and will be reflected in Colorado Profiles with bi-monthly updates from the HR system. Please see Tutorial "An Introduction Tutorial "An Introduction" for more information.

## Manage Proxies

### Manage Proxies

Proxies are people who can edit other people's profiles on their behalf. For example, faculty can designate their assistants as proxies to edit their profiles. If you have a profile, then one or more proxies might be assigned to you automatically by your department or institution. You also have the option of designation your own proxies.

If one of the people listed below has a icon in the Delete column, then you may remove that person as your proxy.

### Users who can edit your profile

None

[Add A Proxy](#)

### Users who have given you permission to edit their profiles

None

### Groups of users whose profiles you can edit

You can edit the profiles of any user belonging to any of the organizations listed below. The Visible column indicates whether users in an organization can see that you have permission to edit their profiles.

None

[Biliary Atresia](#)[Sokol, Ronald](#)[Surgery for biliary at](#)[See All \(3\) pages](#)

## Biliary Atresia

"Biliary Atresia" is a descriptor in the National Library of Medicine's controlled vocabulary thesaurus, [MeSH \(Medical Subject Headings\)](#). Descriptors are arranged in a hierarchical structure, which enables searching at various levels of specificity.

### MeSH information

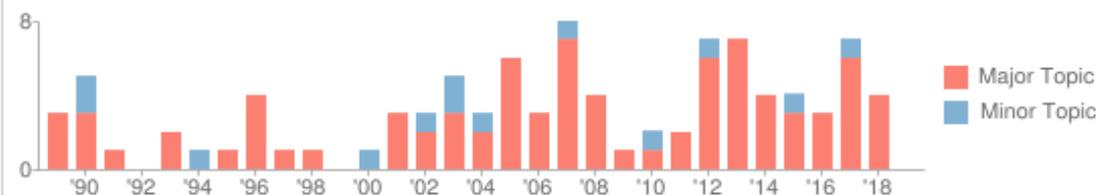

[Definition](#) | [Details](#) | [More General Concepts](#) | [Related Concepts](#) | [More Specific Concepts](#)

Progressive destruction or the absence of all or part of the extrahepatic BILE DUCTS, resulting in the complete obstruction of BILE flow. Usually, biliary atresia is found in infants and accounts for one third of the neonatal cholestatic JAUNDICE.

### publications

[Timeline](#) | [Most Recent](#)

This graph shows the total number of publications written about "Biliary Atresia" by people in this website by year, and whether "Biliary Atresia" was a major or minor topic of these publications.

[Back to Profile](#)**Concepts (991)**

Concepts are derived automatically from a person's publications.

[Cloud](#)[Categories](#)[Timeline](#)[Details](#)

In this concept 'cloud', the sizes of the concepts are based not only on the number of corresponding publications, but also how relevant the concepts are to the overall topics of the publications, how long ago the publications were written, whether the person was the first or senior author, and how many other people have written about the same topic. The largest concepts are those that are most unique to this person.

Cluster

Timeline

Details

This cluster graph shows the co-authors (green circles) and top co-authors of co-authors (blue circles) of Ronald Sokol (red circle). The size of a circle is proportional to the number of publications that author has. The thickness of a line connecting two authors' names is proportional to the number of publications that they share. Options for customizing this network view are listed below the graph.

Click and drag the name of any author to adjust the clusters. Shift-click and drag the name of any author to move them and pin it to a fixed location. Click again to unlock the position. Ctrl-click a name to view that person's network of co-authors. Alt-click a name to view that person's full profile. Please note that it might take several minutes for the clusters in this graph to form, and each time you view the page the graph might look

# Caveats

- You can make your own Group for visualization of connections and co-authors (think Center grants) – contact [profiles@ucdenver.edu](mailto:profiles@ucdenver.edu)
- If you have a very common name and your co-authors have very common names, we may need to assist you in the disambiguation so that Pubmed feed is correct - [profiles@ucdenver.edu](mailto:profiles@ucdenver.edu)
- Faculty at affiliated hospitals (e.g., DH, NJH, VAH) must be registered with UCD People Soft as POI and have the correct department listed (contact Administrator of that Dept.)
- Mega Thanks to Swan Ellert, our CCTSI manager of PROFILES
